## Professionalism

---

- C, C++, Python
- Tableau Tool
- Data Science
- Machine Learning
- Web Development
- HTML, CSS, BOOTSTRAP
- Database, DBMS
- Aptitude

## Curiosity

---

- Data Visualization
- Carrom
- Listening Music

## Vernacular

---

- English (Professional)
- Hindi (Native)

## Accomplishments

---

- Carrom Runner-Up at school level.

## Career Ambition

---

To achieve high career growth through a continuous learning process, keep me dynamic, visionary, and competitive with the changing scenario of the world and to contribute to the growth of the organization.

## Projects

---

- **AudioBook** (Dec/2020)
  - This is an application built in Python. It can read any PDF and convert that Pdf-text into Audio.
  - GitHub: <https://github.com/Deepak-rathor/PdfReader.git>
- **Visualization of financial data** (Jan/2020-Feb/2020)
  - This is TABLEAU TOOL based project in the field of Business Intelligence.
  - In this project, all insights of data are visualized in the different types of graphs (Bar Graph, Pie Chart, etc.)
- **Prediction of a Model** (June/2019-July/2019)
  - This is Data Science-based project. As per bank requirements, all insights of data are displayed.
  - Prediction of a Model of the bank for a loan dataset that the client will subscribe to a term deposit by Machine Learning Algorithms.
  - Skills involve: Python, Statistics & Probability, and, basics of Machine Learning.
  - GitHub: <https://github.com/Deepak-rathor/Data-Science-Project-with-Python.git>
- **Smart City Application** (March/2018-April/2018)
  - This project is the basic project which includes the understanding of OOPs concept in **C++** programming using files.
  - This application is helpful for tourist because all information of city is available in this application like Hotels, Zoos, Parks, Temple, etc.
