- Carrom Runner-Up at school level.

Career Ambition

To achieve high career growth through a continuous learning process, keep me dynamic, visionary, and competitive with the changing scenario of the world and to contribute to the growth of the organization.

Projects

- **AudioBook Convertor** (Dec/2020)
  - This is an application built in Python. It can read any PDF and convert that Pdf-text into Audio.
  - GitHub: https://github.com/Deepak-rathor/PdfReader.git

- **Visualization of financial data (**Jan/2020-Feb/2020)
  - This is TABLEAU TOOL based project in the field of Business Intelligence.
  - In this project, all insights of data are visualized in the different types of graphs (Bar Graph, Pei Chart, etc.)

- **Prediction of a Model (**June/2020-July/2020)
  - This is Data Science-based project. As per bank requirements, all insights of data are displayed.
  - Prediction of a Model of the bank for a loan dataset that the client will subscribe to a term deposit by Machine Learning Algorithms.
  - Skills involve: Python, Statistics & Probability, and, basics of Machine Learning.
  - GitHub: https://github.com/Deepak-rathor/Data-Science-Project-with-Python.git

- **Tourist Guide (**Jan/2021 - Jan/2021**)**
  - This is C++ based project which includes the OOP concepts and file handling concept.
  - This is helpful for tourists because they can search where they want to go like the zoo, park, mall, hotels, famous places, etc.
